

HEPATITIS C VIRUS (HCV) ANTIGENS

	Cat. #	Product Name and Description	Tag
1	AHCV 111	HCV core <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV core, genotype 1b	GST
2	AHCV 116	HCV core, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV core, genotype 1b	GST
3	AHCV 201	HCV NS3 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1a	GST
4	AHCV 207	HCV NS3 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1b	GST
5	AHCV 208	HCV NS3 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1b	GST
6	AHCV 210	HCV NS3 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 2c	GST
7	AHCV 215	HCV NS3 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS3, genotype 1c	GST
8	AHCV 300	HCV NS4, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
9	AHCV 302	HCV NS4, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
10	AHCV 303	HCV NS4, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
11	AHCV 304	HCV NS4, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
12	AHCV 305	HCV NS4, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
13	AHCV 307	HCV NS4, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
14	AHCV 308	HCV NS4, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV NS4	GST
15	AHCV 401	HCV NS5 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS5, genotype 1b	GST
16	AHCV 403	HCV NS5 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS5, genotype 1a	GST
17	AHCV 406	HCV NS5 <i>E. coli</i> derived protein recombinant contains immunodominant region of HCV NS5, genotype 3a	GST
18	AHCV 502a	HCV combined, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of HCV core, NS4 and NS5	GST
